JEWISH FACULTY RESILIENCE GROUP (JFRG)

c/o Kira Stein, MD Kstein@mednet.ucla.edu | Tel: 818-415-3357

January 12, 2024

Dear Chancellor Block and President Drake,

The UCLA Jewish community is dismayed and alarmed by rising antisemitism on our campus, particularly since October 7, 2023, which saw the largest slaughter and mass rape of Jewish people since the Holocaust. In 2019, in response to an uptick in antisemitism at UCLA, the Anti-Defamation League (ADL) and Hillel urged UCLA community leaders to respond to campus antisemitism by:

"(1) calling out incidents that have no place in an academic setting as and when they occur; (2) monitoring and remediating factors that create a campus environment in which Jewish and Zionist students feel targeted and excluded; and

(3) providing education for members of the UCLA administration and faculty who deal with these issues, on an ongoing basis."

It is now 2024 and we continue to wait for meaningful action to address antisemitism on campus. UC leaders must exercise their own First Amendment rights to condemn antisemitism and anti-Zionism swiftly, unequivocally, and consistently, and educate students and faculty when they participate in it.

Please address the following five attachments to this cover letter:

- Pages 2-18: Our open letter to you, with a list of over 1300 signatures from UCLA faculty, students, staff, parents, donors, and alumni.
- Page 19: Our recommendations for UCLA chancellor selection criteria.
- Two organizations we recommend for your consideration for mandatory antisemitism-awareness training for UCLA administration and staff:
 - o Pages 20-21: Academic Engagement Network (AEN)
 - o Pages 22- 29: Project Shema
- <u>Pages 30-31</u>: An email from a UCLA faculty member, forwarded by Zev Yaroslavsky to Chancellor Block on November 15, 2023 (yet unanswered) about an egregious instance of overt antisemitism
- Pages 32-34: A list of incidents at UCLA that have created a threatening environment for Jews.

This is a time of great unease for Jews at UCLA. We look forward to an empathic and substantive response and to meeting with you on these issues.

Respectfully, and on behalf of the Jewish Faculty Resilience Group (JFRG) at UCLA,

Kira Stein, MD,

Assistant Clinical Professor

Department of Psychiatry and Biobehavioral Sciences

UCLA School of Medicine

Open Letter to Gene D. Block, Chancellor of UCLA and Michael Drake, President of the University of California

We, the members of the UCLA Jewish Faculty Resilience Group (JFRG), UCLA staff, students, and alumni have mobilized to support each other during the current crisis in the Middle East and rising global antisemitism. The mission of the JFRG is to counter rising Jew-hatred on campus and in the UC system, support Jewish students and faculty, and promote Western democratic values. As members of the UCLA community, we want to make our voices heard.

While Jewish rallies across the world – including UCLA – peacefully support Israel's right to exist and call for the release of civilians kidnapped by Hamas, UCLA has been the site of virulent antisemitic tropes and incidents by pro-Palestinian protesters. Instead of promoting the only constructive path to a sovereign Palestinian state – rejection of terrorism and endorsement of peaceful co-existence with Israel – they have terrorized Jewish UCLA faculty, students, staff, and allies, with destructive, provocative signage, chants, and/or behaviors that:

- Call for "Itbah El Yahud" (the slaughter and genocide of Jews)
- Deny the atrocities of October 7th
- Justify the murder and barbaric torture of Jews and others on October 7 as a legitimate resistance movement
- Promote anti-Israel rallies with photos of people carrying weapons
- Advocate for "Global Intifada" (violent uprising) on campus
- Erase the State of Israel "from the (Jordan) river to the (Mediterranean) sea"
- Demonize and ostracize Jews, simply because they identify with being Jewish

We want UCLA leadership to immediately and unequivocally denounce antisemitism, whether through action, intimidation, or hate speech on our campus.

Specifically, we demand that leadership at UCLA take the following specific steps **now** to combat and address antisemitism on the UCLA campus while avoiding any hints of a "Whataboutism" approach:

- Publicly recognize that the Jewish people, as an historically oppressed and vulnerable minority, deserves protection and inclusion, like any other
- Publicly support the Jewish people's right to live peacefully anywhere in the world, including in their ancestral homeland, in the State of Israel
- Formally adopt the definition of antisemitism as outlined by the International Holocaust Remembrance Alliance (IHRA), <u>Working Definition of Antisemitism</u>
- Denounce the demonization of Jews as a group
- Denounce calls for violence against, ethnic cleansing, and/or genocide of Jews, including "From the River to The Sea", "Intifada", and "Jihad"
- Denounce and enforce UCLA policies against images, signage, speech, or behavior that incite violence against any group, including Jews
- Mandate antisemitism awareness and sensitivity training for all faculty, administrators and staff, and all organizations that receive funding from the University
- Demand that The Office of Campus Safety and the UCPD respond promptly to instances of violence and hate and provide security for targeted students and faculty.

We wish to meet collaboratively with you to establish a process by which these goal be met in a time-sensitive manner.	s can
UCLA, a publicly-funded university, needs its leaders to bravely demonstrate moral c and act decisively to specifically address antisemitism on UC campuses now.	larity

UCLA Chancellor Selection Criteria Recommendations

Submitted via email on Jan 10, 2023 by Kira Stein, MD on behalf of the Jewish Faculty Resilience Group (JFRG) at UCLA

The Jewish Faculty Resilience Group (JFrg) at UCLA formed in the wake of the stunning rise of antisemitism across the globe and UCLA since the atrocities of October 7, 2023 -- the worst massacre of the Jewish community since the Holocaust. JFrg is a community of Jewish and non-Jewish faculty, staff and allies at UCLA dedicated to countering antisemitism on campus and promoting Jewish culture, democratic values, and authentic representations of Jewish history. As part of our mission to help UC leadership make UCLA a welcoming and safe space in which Jews can live and work, we urge you to add the following selection criteria to your search for the next UCLA chancellor.

The next UCLA Chancellor should demonstrate a proven track record of -- and commitment to – countering antisemitism by:

- 1. Recognizing the Jewish people as a historically bonded minority that deserves respect, protection, and inclusion like any other group.
- 2. Prioritizing and promoting measures that educate the UCLA community about Jewish history, including the reality that Jewish people are multi-racial and indigenous to the land of Israel.
- 3. Making and enforcing actionable policies to address antisemitism.
- 4. Swiftly condemning antisemitic endorsements of genocide and violence against Jews, including public slogans and chants that call for the erasure or destruction of the state of Israel.
- 5. Protecting Jews from admission quotas and other forms of discrimination based on race, religion, nationality, place of origin, or ethnic status.
- 6. Consistently enforcing policy of place, time, and manner restrictions on campus demonstrations.
- 7. Refraining from responding to antisemitic events by calling for measures to combat Islamophobia. Antisemitism needs to be called out on its own.

Improving the Campus Climate Initiative Professional Development on Jewish Inclusion and Antisemitism Proposal to the University of California, Los Angeles January 2024

As bias incidents against Jews increase across the United States, many higher education leaders are grappling with how to effectively address antisemitism and support Jewish inclusion on campus. The Academic Engagement Network (AEN), an independent, non-partisan, educational organization, is available to partner with the University of California, Los Angeles to provide professional development for Student Affairs; Equity, Diversity, and Inclusion; and Human Resources staff on these topics.

AEN's <u>professional development offerings</u> are uniquely tailored to higher education administrators and provide an overview of:

- Jewish identity and the diversity of Jewish experience
- Historical and contemporary manifestations of antisemitism
- Understanding of Jews, race, and whiteness
- Intersection of racism and antisemitism
- Nuanced relationship between anti-Zionism and antisemitism
- How to address antisemitism within the context of free speech and academic freedom

Thirty college, universities, and higher education professional organizations have hosted AEN workshops over the last three years, reaching 2000+ administrators across the United States. Several University of California campuses – including Davis, Berkeley, Merced, and Santa Cruz – have also participated in AEN professional development opportunities.

Through the 2-hour *Introductory Workshop on Jewish Identity and Antisemitism*, administrators will deepen their understanding of the diversity of Jewish identity, how antisemitism impacts members of the Jewish community, and manifestations of antisemitism on college and university campuses. The follow-up 2-hour *Reactive and Proactive Strategies to Support Jewish Inclusion* workshop guides participants to apply their earlier learnings and think about what they can do to create a more inclusive environment for the campus Jewish community through analyzing case studies and brainstorming actions they can take within their office or department.

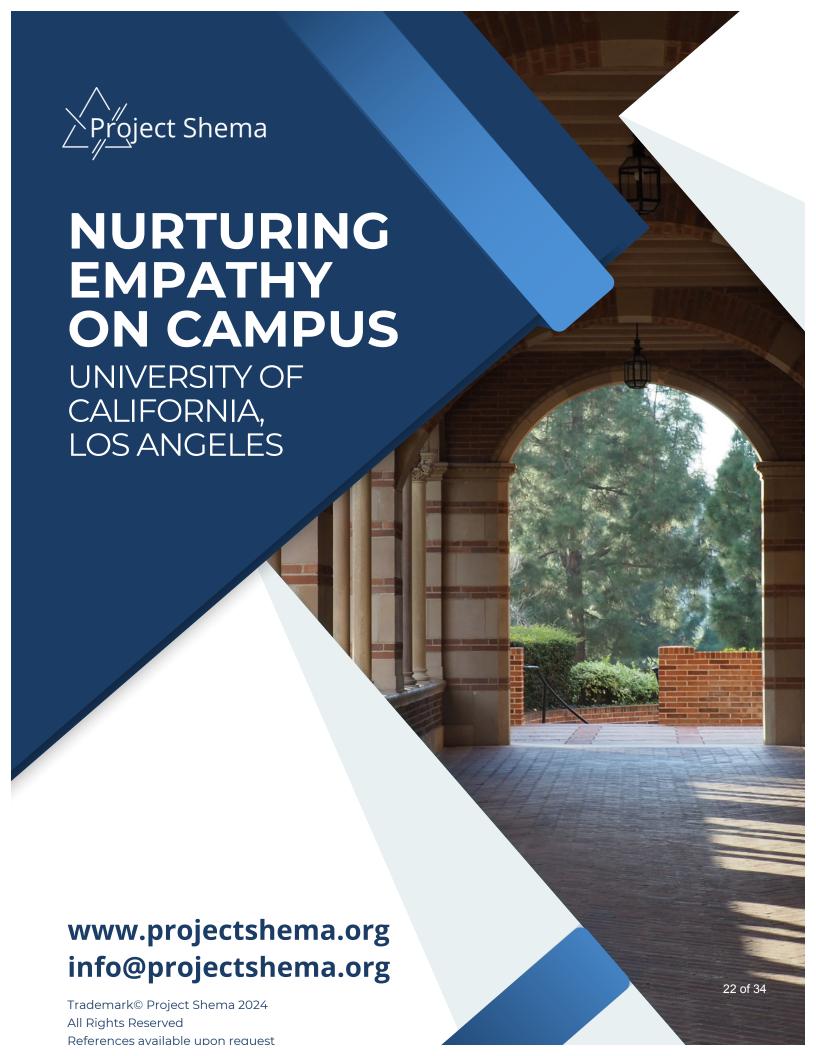

In addition to professional development workshops, AEN is available as an ongoing resource to the UCLA administration to provide support and guidance in addressing antisemitism and supporting Jewish inclusion on campus. UCLA administrators are also invited to apply for AEN's yearlong Signature Seminar Series professional development program.

The Academic Engagement Network envisions a world where American higher education welcomes, respects, and supports the expression of Jewish identity and robust discourse about Israel.

Workshop Facilitator Bio:

Naomi Greenspan is Director of the Academic Engagement Network's Improving the Campus Climate Initiative. In this role, Naomi partners with universities to establish and implement antisemitism awareness education and training programs to create a more inclusive campus environment. Prior to joining AEN, Naomi designed and developed educational programs and resources on antisemitism, its intersection with racism, and the relationship between anti-Zionism and antisemitism. She has extensive experience facilitating workshops to address bias and bigotry and promote interfaith dialogue and understanding on college campuses, in schools and communities. Naomi earned her B.A. from Washington University in St. Louis where she studied Psychology and Jewish, Islamic and Near Eastern Studies, and an M.A. from Teachers College at Columbia University in International Educational Development and Peace Education.

EXPANDING INCLUSION

ANTISEMITISM EDUCATION TO CREATE EMPATHY & COMBAT ANTI-JEWISH BIASES & BIGOTRY

Antisemitism is often referred to as the "oldest hate" not necessarily because that's a verifiable fact, but because bigotry targeting Jews has proven to be pervasive for millennia. Long before our contemporary social constructs of race, long before the invention of the modern nation-state as the collective organizing model for our world, Jews have been demonized, dehumanized, excluded, and violently attacked in a cyclical pattern.

While antisemitism is similar to, intersects with, and fuels many other forms of bigotry, anti-Jewish bigotry also works differently than our standard understanding of bigotry and systems of power and oppression. Consequently, the mental models we have for understanding antisemitism, let alone Jewish identity, lead many otherwise well-intentioned people to miss anti-Jewish ideas when they're present, unintentionally perpetuate anti-Jewish ideas, and/or dismiss the concerns of the Jewish community which are rooted in our own understanding of our history and intergenerational trauma.

The failure to understand Jewish identity, what antisemitism actually is, and how it works, has unfortunately also led many to exclude an accurate exploration of Jewish identity and holistic antisemitism education from broader efforts around Diversity, Equity, and Inclusion in ways that are harmful for Jews and our broader society. Our goal is to change that.

Founded by Jewish leaders with deep ties in social justice movements, Project Shema brings a fresh and humanizing approach to these challenging issues. Project Shema works to deepen understanding and build compassion and bridges across communities. Since its founding, Project Shema has supported Jewish institutions and multinational corporations, and institutions of higher learning to explore these complex issues.

With each partner, we work to tailor a process that aligns with the organization's approach to education around these issues. That includes conversations with key stakeholders, including Jewish leaders to ensure a truly inclusive process, to set up the right process and structure and identify which member of <u>our team</u> is best suited to facilitate for each of the unique audiences we may deliver programming to.

At Project Shema, we believe process matters most

The Hebrew word "shema" means to hear, listen, and understand. **Project Shema is a training and support organization built by progressives in the United States to help our Jewish community and allies understand and address contemporary antisemitism.** We focus our efforts on the unique ways anti-Jewish ideas can emerge in discourse around Israel and Palestine, within social justice movement spaces.

We are not an Israel advocacy organization. Rather, we work to deepen understanding and build compassion and nurture empathy for the history, trauma and lived experiences of the Jewish people.

MEET OUR TEAM

Andi Friedman Facilitator & Coach

Oren Jacobson Executive Director

PROJECT SHEMA GOALS

- **Nurture Empathy** for the lived experiences, identities, traumas, and concerns of the Jewish people
- Create relationships grounded in trust and shared values
- Slow down the spread of anti-Jewish ideas which demonize, dehumanize, and harm Jews
- Speak and act from a place of solidarity. We never pit marginalized communities against each other
- We must always demonstrate empathy for all communities, including and especially Palestinians and Muslims in this moment

TRAINING GOALS

Provide Participants with a clear understanding of:

- Jewish identity, history, and lived experiences
- What contemporary antisemitism is and how it operates
- The ways anti-Jewish biases are rooted in our societies
- Why problematic and dehumanizing rhetoric about Jews is spreading right now
- What anti-Jewish harm looks like in this moment
- Necessary tools to slow down the spread of anti-Jewish harm

WHY WE DO THIS WORK

As an organization, our goal is to deepen understanding across lines of difference by nurturing empathy for the Jewish people's identities, traumas and lived experiences. We are a team of progressive Jews with diverse identities who have invested our lives in pursuing social justice for all vulnerable communities. Our content reflects a deep obligation to uplift all people and engage as allies for others.

We understand that antisemitism is a systemic bigotry ingrained into the fabric of our society and that all of us are conditioned and socialized into anti-Jewish ideas. Anti-Jewish ideas are present in all communities and all movements, even those generally dedicated to addressing bigotry and expanding inclusion, and this challenge is even more urgent in the aftermath of October 7th. We know that the greatest threat to collective Jewish safety is isolation. When Jews are cleaved in a society, blamed by many, and trusted by few. The impact of the current moment, combined with the rise in antisemitism before October 7th, threatens individual and collective Jewish inclusion and safety.

While our antisemitism education is holistic, our organizational expertise is built around the unique ways anti-Jewish ideas can present in progressive spaces, often though not always in discourse around Israel and Palestine. As Jewish progressives who are a part of these movements, we have the responsibility and credibility to engage our peers with compassion.

Within the Jewish community, we help leaders better understand frameworks about systemic/structural power, white supremacy, colonialism, and other systems of oppression. By nurturing this understanding, we seek to build more compassion and allyship among Jews.

A paradigm shift is critical and necessary to address the contemporary versions of this ancient hate. This requires a different approach to education and engagement with those who don't wish to harm the Jewish people, but may carry and/or perpetuate anti-Jewish biases, even if unknowingly. This shift requires transcending binaries and engaging with nuance, while also demanding active allyship with all who may be harmed by dehumanizing Israel and Palestine discourse, including Palestinians, Muslims, and Arabs.

We seek to nurture empathy in ways that strengthen, rather than divide, our communities. In the spirit of the Hebrew word *Shema*, we create space to hear, listen, and understand.

Our Core Principles

We believe in relational organizing, not transactional coalition building

Relationships are two-way streets and are imperfect. Relationships allow space for failure so long as there is genuine accountability and commitment to growth.

We seek to create understanding within & about our community

We seek to ensure our community understands the concerns of others and communicates our concerns in ways that can be better understood by those who don't know our full history.

We believe engagement requires listening & understanding

Productive engagement across communal lines requires hearing each other's voices and understanding each other's concerns, as they exist today, in order to build and/or restore trust.

We believe in fighting antisemitism wherever it occurs

While the immediate threat antisemitism poses is not equal in all spaces, we believe American Jews, and our allies, must push back against antisemitism regardless of which community it comes from. Further, we must distinguish between a lack of awareness or understanding and actual anti-Jewish bigotry, and respond accordingly.

Our Core Principles

We know fighting antisemitism means fighting white supremacy & vice versa

Antisemitism is an animating force of modern white supremacist movements. As white supremacy rises, so too will antisemitism. We must stand up for all who may be attacked by these forces, including those in the Muslim, Black, LatinE, Indigenous, & LGBTQIA communities. We recognize many Jews identify as part of these communities too.

We reject the notion that one must either support Israel or Palestine

We long for a future that honors and protects the dignity, national aspirations, and individual and collective wellbeing of Palestinians and Israelis. The very foundation of a mutually agreeable solution requires honoring the trauma, needs and rights of both peoples.

We do not tolerate demonization or dismissal of anyone's lived reality

We do not tolerate any attempt to demonize, delegitimize, or erase the narratives, history, trauma, and lived reality of marginalized and historically targeted communities.

We approach this work with humility

We recognize that the status quo creates structural barriers which deny Palestinians dignity, safety, and many fundamental rights. And, we recognize the real, present, and persistent threats to the life of Jews in Israel and around the world. We understand that fully reconciling these inherent contradictions is incredibly difficult.

Fwd: Antisemitism harassment against professor of piano at UCLA

To: Inna Faliks < inna.faliks@gmail.com >

I'm very troubled by the circumstances described in your letter. I have forwarded your letter to Chancellor Block.

Zev Yaroslavsky

My book: "Zev's Los Angeles: From Boyle Heights to the Halls of Power. A Political Memoir," written with Josh Getlin, is now out.

On Nov 15, 2023, at 7:12 PM, Inna Faliks < inna.faliks@gmail.com > wrote:

Dear Zev,

I hope you are as well as possible in these dark times.

This is professor Inna Faliks, head of piano at UCLA Herb Alpert School of Music.

I have had no success getting help from UCLA, ADL and the police in response to UCLA antisemitism incidents that have put my family and me in danger.

I need to find a way for Chancellor Gene Block to see the letter below, and thought you might be able to help me. Thanks a lot for any suggestions or feedback. If you are able to get this, below, in front of him, that would especially be great.

Inna

Dear Chancellor Block,

This is UCLA professor of piano and head of the piano area, Inna Faliks.

I am writing to you to seek your help after being harassed by antisemitic UCLA students on and off campus. I haven't received any satisfactory response from UCLA authorities (EDI, Dean of Students, UCPD) and have no other choice but to turn to you personally.

My husband and I are both Ukrainian Jews, born in Odesa, Ukraine. We immigrated with our families when we were children, to escape antisemitism in the Soviet Union.

On October 12 my husband and I went to a terrifying SJP rally on the UCLA campus and witnessed "Itbah El Yahud" chants (Arabic for Slaughter the Jews), and vivid celebrations of Hamas's butchery of 1400 Jewish people on October 7. We were wearing our "I Stand with Israel" shirts. We were threatened by students who told us "We will find you, we will take care of you", while taking pictures of us. My husband is the face and CEO of an Israeli biotech company that researches and builds cancer treatment technology. He had given many online interviews; it is technically easy to find his workplace by

running a Google Image search on his photo. We suspect that this is exactly what the SJP protesters from UCLA did after the rally. The day after the rally, my husband was stalked at his off-campus workplace by a specific person from the rally, who had threatened him the day before. This person turned out to be a UCLA postgrad student from named who (according to online student profile) does research on Hezbollah had a reminder, Hezbollah is a terrorist organization based in Lebanon, guilty of killing hundreds of Americans and Israelis. Was trespassing at my husband's workplace, photographing my husband, the building and his co-workers. To reiterate, had no reason to be at my husband's office other than harassment and intimidation. When had no reported this to UCPD, LAPD and the FBI.

Two weeks later, somebody left a large pile of garbage topped with a swastika and a piece of paper with the words, "Loud-Mouthed Jew" on the doorstep of our home in West LA, where we live with our 2 small kids. While we have no photo of the person who did this, the chain of events leading to this event strongly suggests the involvement of said UCLA student and potentially other associates from SJP.

To stop this pattern of harassment, we have reported the event again to UCPD, LAPD, FBI and UCLA EDI and the Dean of Students. We have asked them to discipline and support and support and support support and su

I trusted UCLA to take my concerns seriously. When some colleagues suggested I take matters into my own hands and publish . Sections online along with photo, I refused. I thought that my employer would protect me, my family and my rights. Unfortunately, it appears I have been naive. To date we received no adequate response from any UCLA department. UCPD refused to do anything as "no actual violence had been reported." UCLA EDI and the Dean of Students refused to share any information on their steps, due to "privacy concerns". We do not know if the student has been approached by UC authorities or not, disciplined or not, and whether still represents a threat to us. I walk the halls of UCLA In fear, and my family lives in fear because of antisemitic harassment by a UCLA student who had no shame to threaten me and stalk my family. My rights for a safe work environment at UCLA, as a Jewish professor, appear to be less important than the right for privacy of an antisemitic student. This is outrageous and deeply concerning.

I have no doubt you can emphasize with me on a personal level, but in order to feel safe again and valued as a professor and a human being at my workplace at UCLA, I ask you to provide me with a clear response to my simple questions. I deserve this as a victim to a pattern of harassment. I am appalled that my place of employment hides behind privacy concerns for an antisemitic student who is breaking UCLA bylaws. Threatening a professor at a rally is a violation of UCLA bylaws. Stalking a professor's family off campus is a violation as well, and so is the placement of antisemitic notes. A victim deserves to know that justice has been meted.

- Has the student been disciplined by UCLA, and if so, how?
- What has UCLA done to prevent , and SJP in general, from harassing me and my family?
- How is UCLA changing its policies to prevent such cases from occuring in the future?

I look forward to hearing from you on this matter and would be happy to discuss this in person. Regards,

professor Inna Faliks

LIST OF INCIDENTS AT UCLA THAT HAVE CREATED A THREATENING ENVIRONMENT FOR JEWS

The Jewish Faculty Resilience Group has compiled the list below from the sources indicated in parentheses. Although far from exhaustive, the sheer volume of known incidents demonstrates that UCLA has become an increasingly threatening environment for Jews since the Hamas massacre that took place on October 7 of last year.

Events during 2023 before October 7

- On May 13, 2023, antisemitic graffiti was found in a restroom in University Library on the UCLA campus (Anti-Defamation League).
- On May 26, 2023, a UCLA professor received an email with antisemitic overtones, including blaming Jews for the death of Christ as well as for destroying the U.S. through its valuing diversity (ADL).

Events that have taken place since October 7, 2023

- Starting on October 7, there have been multiple on-campus protests and rallies against Israel, not infrequently crossing the line into antisemitic language and actions. For instance, on October 12, 2023, Students for Justice in Palestine held a "Walk Out for Palestine" that featured vivid celebrations of Hamas's massacre of Jews five days earlier. Besides repeated shouting of "Intifada," demonstrators chanted Itbah El Yahud (Arabic for "Slaughter the Jews"). (ADL)
- At that same event on October 12, Protestors photographed a Jewish faculty member while threatening, "We will find you, we will take care of you." The next day, one of the demonstrators showed up at the faculty member's husband's workplace to take photos of him. Two weeks later, somebody left a large pile of garbage topped with a swastika on the doorstep of the faculty

- member's home, bearing a piece of paper with the words, "Loud-Mouthed Jew." (UCLA faculty member report).
- On November 8, an anti-Israel protest at UCLA featured many masked demonstrators who prominently beat a piñata bearing a picture of Israeli Prime Minister Benjamin Netanyahu. One masked individual hit the effigy with a stick while yelling, "Beat that f—ing Jew!" (ADL, Daily Bruin)
- On November 27, masked students wearing kafiyas, holding large knives, and carrying Palestinian flags walked around the campus tearing down posters of Israeli hostages (UCLA Hillel).
- There has been ongoing bullying and harassment of Jewish students who
 are members of USAC, UCLA's student government. Included are threats,
 offensive accusations at student government meetings from a variety of
 students, and public announcements to disassociate from those Jewish
 students—simply on the basis that those Jewish students wished to be
 included in general student activities. (UCLA Hillel)
- During the same time period, student leaders have used antisemitic tropes in publicity targeting Jewish students and "Zionists." Included in those displays are statements suggesting that pro-Israel displays on campus have been laced with chemicals and razor blades to injure anyone attempting to tear them down. (UCLA Hillel)
- During October, UCLA Hillel received an antisemitic email that included charges that Jewish people were responsible for "9-11, mass illegal immigration, sexualizing children, exacerbating racial tensions", etc. Posters of Israeli hostages held by Hamas were ripped down and strewn across the ground. At an anti-Israel protest held on campus, participants chanted, "Israel, Israel, you can't hide; we charge you with genocide" (ADL).
- On November 9, a swastika was discovered, carved into a table on campus located between Moore Hall and Kerkhoff Hall (ADL).
- On November 14, a UCLA graduate student TA office's chalkboard was targeted multiple times with antisemitic slogans, even after the student sent

- an email to the department complaining about that conduct and asking it to be abated. (ADL).
- On November 16, a sign displayed on Bruin Walk proclaimed, "Israel has managed to turn Jews into Nazis." (ADL)
- During this time-period, UCLA David Geffen School of Medicine has experienced numerous anti-Semitic incidents, including:
 - Antisemitic social media posts and the harassment of Jewish medical students on social media. (ADL).
 - Medical student peers ostracizing and referring to Jewish medical students as "dogs," denying that Hamas committed any atrocities on October 7, and demanding that the UCLA Jewish Medical Student Association retract their statement that Hamas took hostages and sexually assaulted women (UCLA medical student report to faculty).
 - On October 25, a first-year medical school class lecture was interrupted by students calling for a walk-out to march to a UCLA pro-Palestinian protest, where numerous anti-Israel and anti-Jewish chants unfolded. The organizers of the walk-out vilified the 4-5 students who chose to stay in class. Those organizers further publicly "called out" any students who, having left the class, split off from the march before it reached its final destination. (UCLA medical student report to faculty).
 - On December 14, Hillel held a Chanukah lighting celebration at the medical school. Medical students told faculty that they chose not to pose for a group picture because they worried that associating with a Jewish ritual would marginalize them further (UCLA faculty witnesses).
